RE: Organizational Announcement
    Production Control Coordinator
    SunFire Sales Manager

We are pleased to announce two additions to Rock Energy Systems!

Rock Energy Systems is pleased to announce **Michael Perleberg** has joined us as the new SunFire Sales Manager. Michael started Wednesday, January 2th, and is already making the rounds and meeting new faces. Michael will report to Bob Schaefer – Sales and Marketing Manager.

He already knows a bit about the SunFire line. Michael spent the first week learning the in's and out's of the radiant heater – quite literally! He enjoys learning new things every day and is looking forward to honing in on the SunFire website. Branding, sales and distribution knowledge are strengths he brings to the position.

Michael hails from Hartland, is the proud husband of Bobbie Jo, and has two daughters, Mackenzie (19) and Isabel (16). One of his favorite vacation spots is Gatlinburg, TN.

Kelli Buck joins RES as our new Production Control Coordinator. She started Monday, January 7th and will be working hand-in-hand with shop and office staff to coordinate our Clean Burn, Lanair, and SunFire production orders. Kelli will focus her time on tracking inventory, order materials, and support the floor to keep things running smoothly! Her main goal is to work with internal clients to address their service needs. She will report to Doug Lawrence – Operations Department Lead.

Residing in Janesville, Kelli and her husband, Shawn, have four children, Jordan, Morgan, Keaton and Kendall. In addition, their dog, Loki, and cat, Halo, also keep them busy. Kelli enjoys spending time with her family and friends, is skilled at home decorating, and when not trying new breweries, she enjoys relaxing at home. Kelli brings with her over 9 years of production planning, scheduling, and management experience. Her favorite catch phrase…"When nothing is going right – go left!"

Please Welcome to Michael & Kelli into the RES Family!
